AIS Zurich Special Event policy Options

The AIS Zurich entertainment special event insurance program has two policy options

1. The Single event policy is underwritten and issued for each individual event. An event cannot last over 60 days. Refer to underwriting guidelines at www.amriskusa.com.

2. The annual reporting form policy is also available for underwriting expediency convenience. Coverage is written for a twelve month term under one policy with a minimum of three events to qualify for this policy.

The advantage to the annual policy is that each event is added as an endorsement rather than writing a new policy for every event.

All events on an annual form must still be submitted and underwritten on an individual basis in advance of the event.

The annual policy limits apply to all event activity and if a higher limit is required for a specific event the entire annual policy limit must be increased for all events.

The alternative for a single event with higher limits than annual coverage would be to write a separate event policy for that specific event.

The advantage to an annual policy is convenience, expedited underwriting, quoting and processing, and savings on individual policy fees.

Call or email American Insurance Specialists for more special event information.
